

## REMARKS

Claims 1-4, 10-18, 21-28 and 37-38 and 40-41 remain pending in the application.

### **Non-Compliance with 35 U.S.C. 121**

On August 29, 2005, a Restriction was issued, identifying ten patentably distinct elements. An Election was filed on October 31, 2005, electing claims directed to Species I, Figures 1-4, 10 and 12-13 as identified in the Restriction Requirement.

In a subsequent Response filed on March 20, 2006, applicant added claims 37-41, but failed to identify what species these newly added claims read on.

By the advisory action mailed May 22, 2006, Applicant's Response of March 20, 2006 was deemed not fully responsive for failure to comply with 35 U.S.C. 121, which requires that any claims subsequently added must identify what species they read on.

### ***Identification of Newly Added Claims***

Claims 37, 38, 40 and 41, which were added to the application on March 20, 2006, are herein identified as reading on Species I. By the above amendment, claim 39, which was also added on March 20, 2006, has been withdrawn, subject to the allowance of a generic base claim.

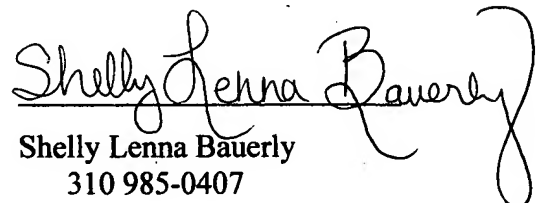

### ***Conclusion***

Applicant submits that all pending claims are in condition for allowance. If a telephone interview would be helpful in any way, the examiner is invited to call the applicant at the phone number listed below.

Respectfully submitted
